Panorama has a reputation to live up to. Billed as Miami's highest level of living, the grand mixed-used tower is above it all. About 90% of the condo-level residences offer water views of the Biscayne Bay and Atlantic Ocean via hurricane-resistant, floor-to-ceiling window walls and expansive balconies with glass railings. Residences here run a tad larger—one bedrooms start at 1,100 square feet; two bedrooms start at 1,600 square feet; and three bedrooms start at 2,100 feet.
