The Tallest Building in Every State

Amanda Tarlton

From modern skyscrapers to historic state capitols, these are the tallest buildings in each of the 50 states across the country.

Florida: Panorama Tower

Miami may be a hot destination because of its incredible Cuban cuisine but it's also the location of Florida's tallest skyscraper. The **Panorama Tower** soars at 85 stories high, making it the tallest building south of New York, and it has some of Miami's most luxurious residences and finest restaurants.
